LETTER OF INVITATION

for the First Gyeonggi Academy International Conference

14th April 2014

To whom it may concern,

With great pleasure, I invite your school to the 1st Gyeonggi Academy International Conference (GAIC) on June 13th to 15th 2014, on behalf of all the students and faculty members of Gyeonggi Academy of Foreign Languages (GAFL). First found by members of the GAFL Student Council and myself, GAIC is a unique event designed to bring students from all over Asia with the single goal of creating a better future for all. GAIC will provide participants the opportunity to tackle global issues, learn from one another, and create international network that will help them in their future.

As a global event that strives to better the human environment, the first Gyeonggi Academy International Conference will take place in the form of an UNA-USA style Model United Nations. In it four committees will take place being; the General Assembly, Security Council, Economic and Social Council, and the International Court of Justice. The GAIC MUN also invites students with dreams of informing truth to the public, as reporters of a press corporation. While the three day event will set firm focus on the program, various events will allow participants to form personal relationships to last.

Once again, it is my greatest pleasure to invite your school to participate in GAIC. We look forward to making GAIC happen together.

Most Sincerely,

Chae Woo Lim
Secretary General
